Our Still Small Voice

F1: [Well lemme put it terms that it's easier for me to say and not have to go into the details of how I know but]

R1: **The porno offers Lockheed doesn't know I could fight Inez said him refer easy. (In)stead it's some rotten debt he'll pay my wool.**

F = 0:00:06 to 0:00:14, R = 0:00:06 to 0:00:14

- How Bill knows is connected to some sort of porn offers that Lockheed is not aware of Bill being able to use to fight with (knowledge of porn connected to leverage in some way?) connected to fighting someone named Inez or a metaphor represented by a person named Inez connected to an easy referral. But, instead in some way, there is a rotten deal connected to a debt where payment is made connected to pulling the wool over someone's eyes or pulling the wool over a group of peoples' eyes.

F2: The technology is [easy to describe and easy to talk about]

R2: **Starbuck cost if he's eatin' of the ark's seduce-easy.**

F = 0:00:47 to 0:00:52, R = 0:00:48 to 0:00:52

- There is a cost for buying into/partaking of, this space man technology because it is connected to eating an aspect of the soul in some way being sold through seductions. This is likely to be talking about programming humans to interfere with their free will undetected so that it affects personality and who they are supposed to be versus who an idiot transhuman programmer wants to cowardly force people to be without their knowledge or consent.

F3: Dozens if not hundreds of vehicles that are more than capable of space flight and [make it so we would have a fleet of vehicles that would be] seemingly extra-terrestrial.

R3: **Pave the words all-pay-vrils provide a will. Whore stick him.**

F = 0:01:08 to 0:01:26, R = 0:01:16 to 0:01:24

- The winds of change are paved by The Whore, likely The Whore Ai connected to the will of a Nazi secret society (likely the Global Transhuman Syndicate) and the Whore harming him. It's not clear who him is referring to. The whore metaphor seems to be alluding to the Whore of Babylon who forced a worldview on people she conquered. Those not destroyed were subverted. And, God's people were attacked through governmental persecution and through seduction and idolatry.

F4: [So at that point all possibilities lead to the same Rubicon.]

R4: **Mouse kill. Massive immune see door to south wall. ALF guide us.**

F = 0:11:24 to 0:11:30, R = 0:11:24 to 0:11:30

- Mice (likely people) in a trap are killed. A large number who are immune in some way see a doorway of some kind to overcome the past and/or move in a successful direction in some way are guided by A.I. to an obstacle and/or to overcoming separations in the mind, and or to have hope of overcoming an obstacle.
- This just sounds like the Ai death trap I've seen described elsewhere. So, it describes people being used as lab experiments being killed. And, massive people being led into an obstruction by Ai with the promise of immunity. So this just looks to be the Covid story being told by Bill Brockbrader so far.
