Abstract

Continuing harassment from the Nazi Stasi Academy (NSA) is documented in this short ebook. I am a government whistleblower. The internet traffic from my iphone (TMobile), home computer (AT&T), and work computer (Comcast-Logix) are all being routed thru Incapsula, which is a company that provides internet services to hide and anonymize IP addresses and locations. Part of what the company does is automatically change your IP address many times each day, which is done without your permission or knowledge. The company is a subsidiary of Imperva, based in California. The fact that these three large corporations all

simultaneously began routing my internet traffic to Incapsula, strongly suggests this is an NSA operation. When I contacted Incapsula, they referred me back to TMobile, saying that TMobile is a part owner of Incapsula. I made it clear that I did not request their services and demanded that my iphone be released from such routing. They refused. My phone IP address and location are being hacked, altered, and fraudulently misrepresented – without my consent. I filed a complaint with the FCC. The next day, all of my internet connections appeared to return to the providers, but I also noticed that the phone kept resetting the IP address every few hours – which told me, it was still routing thru Incapsula. As of 5 March 2017, my iphone continues to reset the IP address every few hours. Prior to these events, my iphone service with MetroPCS (TMobile) would regularly be blocked from phone calls or texts for hours at a time ("Call Failed"). My attorney's phone, which is also MetroPCS, would be standing next to me and working fine – meaning it was not a network problem. Oddly, even while my iphone could not make phone calls or texts, I was able to send emails thru the internet because the phone had a perfect, 5-bar signal – but the wifi and bluetooth were shut off. It would appear that these government criminals have hacked and compromised my iphone. I have made a number of complaints to MetroPCS and they claim there is nothing they can do. It is noted that the CIA organizes an annual "Jamboree" in Virginia where government agents and contractors, gather to discuss the latest methods for hacking Apple software and devices. The Intercept.com published a report which is available on their website. This ebook is a continuation of my prior publication, "Cell Phone Hacking by the Nazi Stasi Academy (NSA)." In my opinion, the NSA is not simply monitoring or looking at my computer, which is illegal – they are attempting to alter the information, on my computers and phone.

For a complete list of my published ebooks, see "Ebooks published on Smashwords and Lulu by Richard Lighthouse;" ISBN 9781370721948.

Introduction

Incapsula is a company that provides specialized internet services. It is a subsidiary of Imperva in California. I was told by an employee, named Aviv, that TMobile is a part owner of the company, but have not been able to confirm this. I did not request any services from Incapsula, nor did I apply for any service with them. When internet traffic is routed to Incapsula, they change your IP address many times each day, to make it difficult to locate or track your phone.

On or about,12 January 2017, all of my internet traffic from three devices began routing to Incapsula and this showed up when I checked my IP location.

Cell Phone

Incapsula,

I did not sign up for your service.

My iphone connection began routing thru incapsula today. My phone's IP address has changed at least 3 times today, still showing incapsula and a California location. I am located in Houston, Texas.

I am a government whistleblower. I have had numerous problems with my iphone in recent weeks, which I have documented with MetroPCS (TMobile). The IP address should show as TMobile.

Please release my iphone from your service. Thank you

Owen Calvert 713.306.8287

Figure 1. Email sent to Incapsula, 12 January 2017. Copied on this email are Chris Luna and Tom Keys - executives at MetroPCS, a subsidiary of TMobile. I had previously copied them on a number of emails because my iphone would not make phone calls or texts for hours at a time, even though the internet was working on the iphone (5 bars) and I could send emails on the internet. Mr Luna later informed me that there was nothing they could do. My iphone would just suddenly start working again after I complained to MetroPCS. This has happened several times.

Subject: Incapsula Support welcome email

To: owenc787@gmail.com

Thank you for contacting Incapsula Support.

Unfortunately we were unable to create a ticket for your request, as the email address used in your request was not recognized by our ticketing system.

In order to resolve this, please use one of the following methods:

- 1) Resend the support request to support@incapsula.com using the email address with which you login to your Incapsula account (https://my.incapsula.com).
- Create the support ticket from within your Incapsula account (https://my.incapsula.com -> Support->Submit a request).

Thank you,

Incapsula support

https://incapsula.zendesk.com/verification/ticket/Wd38531dVGvuIvcUEJ9ffy6ZO/

This email is a service from Incapsula Support. Delivered by Zendesk

Figure 2. Incapsula response. I did not have an email address in their system for logging in, because I did not sign up for their service. Someone signed me up without my consent or knowledge.

Figure 12. Home computer - 15 January 2017, 2:17pm. Internet is working well, but no IP address is showing. On the day before, the IP address was showing as Incapsula, but I did not capture it. Note that these are real-time IP addresses from Ipinfo.io & Eurekapi.com, yet as the below screen shots demonstrate, Ipinfo & Eurekapi.com are working fine.

It is noted that my home computer has scrambled file records – this has been happening for about 6 months. In other words, the files have been encrypted and this was not done by me. This computer is running on Windows 8 was not set up to do this, and did not initially operate with encrypted folders. It takes an unusual amount of time to open any folder. This is another example of altered data & information on my computer. I have also had files deleted from the computer, particularly if they are critical of the CIA or NSA.

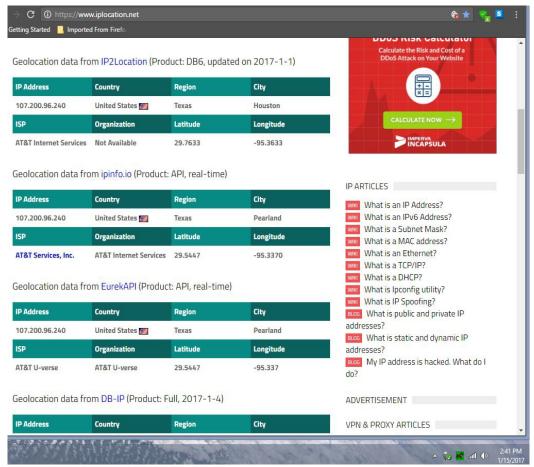

Figure 13. Home computer - 15 January 2017, 2:41pm. Showing locations and AT&T.

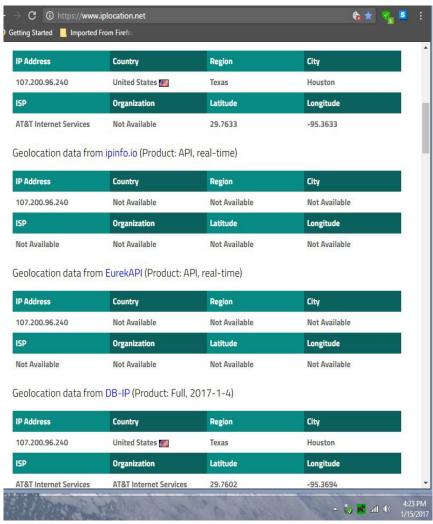

Figure 14. Home computer - 15 January 2017, 4:23pm. Blocked again. This switching on and off, continues for many hours.

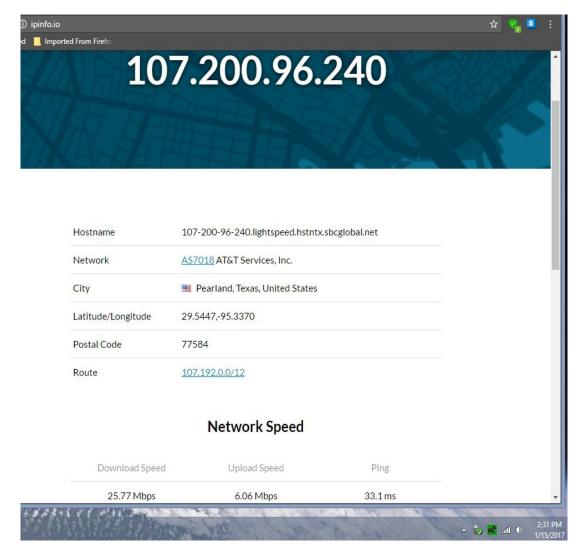

Figure 15. Home computer - Ipinfo.io is clearly working. The prior screen shot says "Not Available."

Figure 16. Home computer - EurekalP is clearly working.

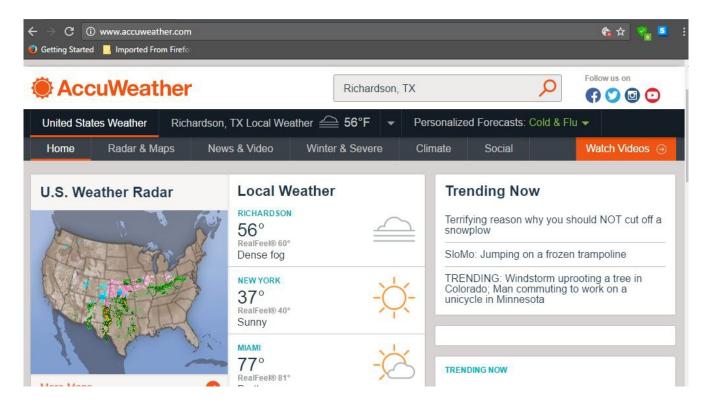

Figure 17. When I access a weather site on 15 January – it thinks I am located in

Richardson, Texas – which is about 300 miles away.

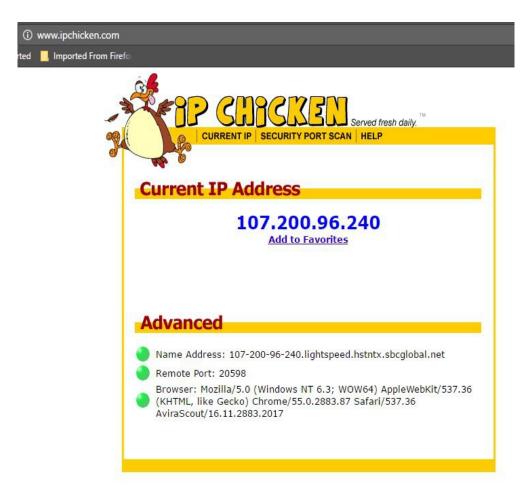

Figure 18. Home computer - another website. 22 January 2017. The computer has been turned off and on many times by now, even the router has been turned on and off – yet it shows the same IP address one week later. This is not impossible, but it is unusual, and probably indicates they have hacked it to show the same IP address, even while it is actually routing thru Incapsula.

Work Computer

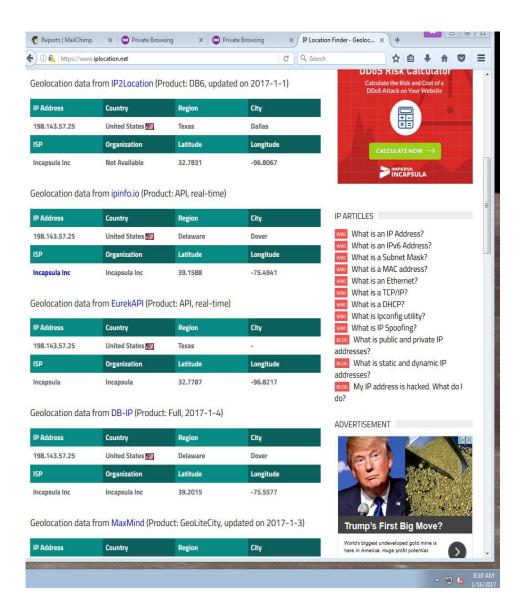

Figure 19. Work computer: 16 January 2017, 8:10am. Incapsula service. Location shows as Dover, Delaware in real time. Another says Texas without a city – also real time. This is unusual because, it shows the GPS coordinates (32.7787,-96.8217), then it certainly knows what city it is – this is downtown Dallas, not some unknown area. Why doesn't it say "Dallas"? But I am in Houston. Several weeks later, the IP Address shows as "Logix," which uses Comcast lines.

Prior to this, my office internet went thru ECSoffice.com and AppRiver.com – where each email had a different IP address when it is sent. AppRiver.com website states that government entities (public and private) are some of their regular customers. Some of my work emails continue to be blocked and filtered, and I have complained about this many times. For example, if I send an email to Mickey.Mouse@ acme.com – nothing is bounced back. Or complete garbage, doiajsdoioid999@999eueh83.com – nothing bounces back. I have no way of knowing if my normal work emails are actually sent or received, unless someone responds.

FCC Complaint

Subject*

Hacking & Altering of the IP address on my iphone, and call blocking

Description*

I am a government whistleblower, and a graduate mechanical engineer. For many months, the IP address on my cell phone has been hacked and altered. My phone service is provided by MetroPCS (TMobile). This sometimes includes blocking my phone calls and text messages for many hours, even while my attorney's phone is next to mine (also MetroPCS) and working fine. I have documented some of this in an ebook titled "Cell Phone Hacking... - available at smashwords.com." (see attachment) The IP address is altered almost every day, and this is not because I shut off the phone or change any settings.

Recently, they started routing my IP address through a company called Incapsula, which alters the IP address many times each day. I did not agree to this service and I did not sign up for it. I complained to the customer support at Incapsula, and they told me that Incapsula is partly owned by TMobile. I do not know if this is correct. They refused to release my iphone from their service, and told me to contact TMobile.

I do not want the IP address on my cell phone to be hacked, altered, or hidden, and I did not agree to any of this activity. I do not want my calls and texts blocked. This morning the IP address on my phone says that all information regarding the IP Address is "Not Available." I have documented this with screenshots and sent them to my attorney. It appears they are attempting to hide my location by frequently changing it. I kindly request your assistance in stopping this illegal harassment.

Please provide the details of your issue. Do not enter personal information like name, address, phone or account number. There are places to enter that information below, if applicable.

Figure 20. FCC complaint filed 14 January 2017.

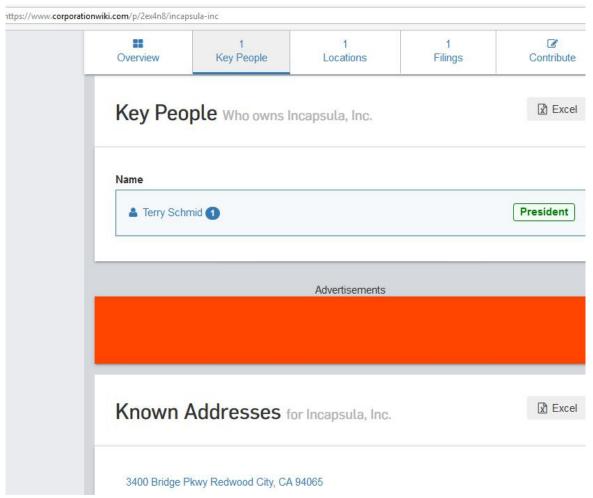

Figure 21. According to corporationwiki.com, the President of Incapsula is Terry Schmid. He is also the CFO of Imperva.

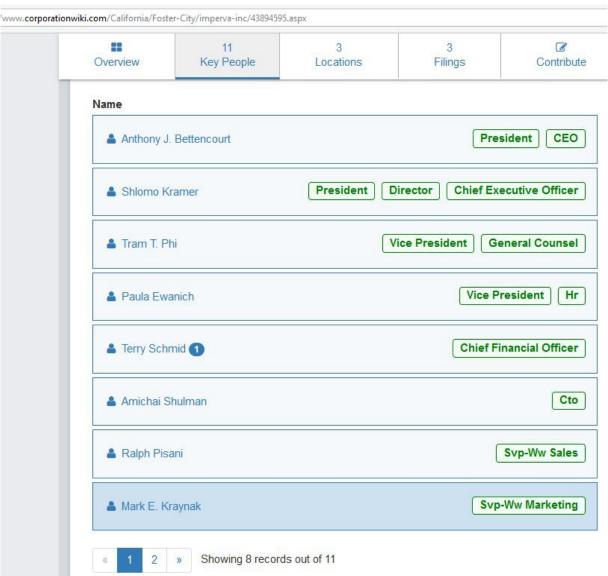

Figure 22. Officers of Imperva, according to corporationwiki.com, Anthony Bettencourt is the CEO. Shlomo Kramer is also a President and CEO for the company.

Known Addresses for Imperva, Inc. 950 Tower Ln San Mateo, CA 94404 3400 Bridge Pkwy Redwood City, CA 94065 1065 E Hillsdale Blvd Foster City, CA 94404

Figure 23. Addresses for Imperva in California, according to corporationwiki.com

Conclusions

Considering that three large corporations, AT&T, Comcast, and TMobile, all began sending my internet traffic thru Incapsula at about the same time – strongly suggests that this is the work of the NSA. Before this happened, I have never heard of Incapsula or Imperva.

This document is a living document. The author reserves the right to make corrections and changes.

APPENDIX

I am a government whistleblower – see my ebooks about the criminal acts of the CIA and FBI. I have identified the location of massive funds (trillions of dollars) owned by the Rockefellers on the London Stock Exchange. Readers are advised that the NSA may be blocking or restricting access to some of my ebooks, especially outside the United States. Readers are further advised that digital tracking tags may have been placed in my ebooks. It may be best to download from Apple iBooks, if possible. Note how slowly the jpg's load into the ebook when viewing. The content of some ebooks may have been altered – still trying to monitor this. If you have tried to contact me, it is possible that emails and phone calls are being blocked (Owenc787 at gmail) 713.three.zero.six.8287; 16930 County Road 831, Pearland, Texas, 77584.

Readers are advised to review the website drjudywood.com which provides compelling evidence about 9-11. Dr Judy Wood and Dr Morgan Reynolds, university professors, filed lawsuits against the US Government for fraud and conspiracy about 9-11. Dr Woods scientific presentation is available at youtube. Readers are also advised to see the movie "Sirius" by Dr Steven Greer, M.D. It is available for free on Netflix, where it is the #1 documentary, and to watch the youtube videos by the Honorable Paul Hellyer, former Canadian Minister of Defense. He has a book titled, "The Money Mafia."

Also, find my brief educational videos on youtube (Some have been blocked from the search engines).

For more than 4 years, this author has been stalked, harassed, and threatened by US Government agents from the CIA, FBI, and NSA - because of the content of these ebooks. My home has been broken into, repeatedly. In May 2014, my girlfriend was drugged and kidnapped from LaGuardia airport. This is not a joke. My computer, phone, and alarm system have been hacked, including those of my friends and family. It is truly sad and pathetic, these agencies have become criminal organizations. If something happens to me (disappearance, false criminal charges, sudden accident, etc. - my readers can be certain that the FBI and CIA were involved. In my opinion, the Council on Foreign Relations (CFR) is behind these criminal acts. David Rockefeller has been the CEO and Chairman for many years.
