

Cerebral Sabrina

*Simplifying sensors, sinks, Salus, surveillance, synthetics, slaughter bots & SOSA,
for starters*

WHO is Sabrina Dawn Davis Wallace?

Sabrina is an extremely intelligent (IQ 200+/polymath/proficient in a few languages) 44-year old descendant of the Rothschild & Rockefeller bloodlines, permanently disabled, mother of 2 teenage daughters (aged 18 & 19). She was given an Interdimensional Beacon System, Medium Access Control (MAC) ID in 1979, & she was a Defense Intelligence Agency (DIA) asset as a child. At 4, God ripped a hole in the dimension, with Archangel Uriel standing behind him, & declared she was His & assigned her a seraphim; Sabrina named "her" Silvia. Sabrina is a prayerful person who believes in Jesus Christ of Nazareth.

As a former network engineer, she set up the backend of the internet at NORTHCOM from dial up to broadband. However, instead of broadband, Sabrina fears the powers that be moved to Body Area Network (BAN), from cable. Sabrina's grandfather was in black projects at Boeing (Fort Meade Station 1), & her Great Uncle Bobby was 35-70th master aircraft mechanic & 65-70th chemical army ordnance corps. Her father was draft #3 69-21st SIGNIT & known as Dr Stereo in Vegas & mother was secret Space Force, so she grew up in the world of radios, math, computers & special/black programs/projects. Her parents were involved with Project Salus (SES) back in 1969 working on artificial intelligence, heads up displays, quantum technology & mapping every cell by state, PHASE & PHAG.

In fact, Sabrina is an augmented (thanks to the Menninger Foundation) N-2, a noninvasive, free-range human with Cosmic clearance who survived SRA. As a child of God, Sabrina uses her biofield as her early warning system, her hair as an antenna, her eyes as a camera, her ears as satellites, her nose as a sensor, her heart as a generator, her brain as the computer, her pineal gland as virtual reality & her DNA as the operating system. YOU HAVE THE SAME COMPONENTS. Use them!

- N-0 is the ship made up of engineered biological entities (EBEs).
- N-1 is the EBE
- N-2 is an augmented EBE, like Sabrina.
- N-3 is the Dizdar Doll with 4 frontal lobes via nano lobotomy.
- N-4 is a modified EBE like a Marvel superhero.
- N-5 is a "big daddy" EBE for mRNA collection.
- N-6 is nephilim.

Sabrina teaches that the human biofield is the solution to the Electronic Warfare (EW) all citizens are subjected to, from simple surveillance to targeted individuals. She has been sounding the alarm on Odyssee for over a year, since April 2022, educating listeners on the technical aspects of fuckery by the Defense Advanced Research Projects Agency (DARPA) from EW to synthetic biology to transhumanism. *Welcome to your digital prison.*

WHAT do you need to believe?

- God is real.
- God created you & imprinted his signature on your unique DNA.
- The biofield was “stolen” by the powers that be, but it’s actually a DNA generated body part known previously as the aura. The biofield is responsible for the homeostasis of the body, electrical & immune functions, & it emanates as biophotons from the bone marrow, small intestine & other areas & propagates outward on the waveform of our DNA. The biofield is not a new age concept or “woo woo” but is a sophisticated system in place for 6,000 years.
- DARPA’s Brain Initiative is the backbone of the Digital ID built from the National Security Agency (NSA) monitoring & neuromodulation through cognitive technology.
- Companies, like your insurance provider, can log in to your body using the telemetry of your aura/biofield based on your veins, arteries, chakras, meridians & nodal points. *Welcome to remote control humans.*
- If you’re not scared enough already, the Institute of Electronics & Electrical Engineers (IEEE) has humans on the internet of bodies/behaviors (IOB), biosensors, quantum steering, biophotonics, etc standards for measuring the electrical map of the body’s homeostasis in preparation for morphology, transhumanism, living libraries, digital twins, Havana Syndrome & more. Welcome to your Body Area Network (BAN) & its derivatives Wide (WAN), rural/radio (RAN), metro (MAN), computer (CAN), local (LAN), personal (PAN) & the nano network. *Welcome to wireless tissue engineering & total piezoelectric control of your body.*
- Frighteningly, Sabrina shows that access to your body is wide open with no security protocols to anyone with Zigbee/Bluetooth applications or GitHub software or \$45,000 to purchase a remote to your body.
- Most horrifying of all, a cornerstone of the Fourth Industrial Revolution is “biological convergence” or hybrids/cyborgs. You won’t be able to tell if these people are purely human or merged at a molecular level with artificial tissues.
- So, your body is the best antenna, the electronic signal routing system & the weapon too.
- Microchips are no longer necessary for the synthetic biology at a nanoscale with biometric systems. *Welcome to your worst nightmare walking around, & they could be right next to you.*

WHERE is the Electronic Warfare & Transhumanism being deployed?

- America, specifically the Military Industrial Complex (MIC), through DARPA is experimenting with super soldiers, augmentation, surveillance, targeted individuals, Real (Digital) ID, digital twins of each person on earth, the internet of bodies, etc.
- China was the testing ground for many of the experiments, according to Sabrina.
- From America, the electronic manipulation has been deployed worldwide. In fact, it was rolled out to China in the 90s.
- Since the United Nations (UN) is used as the primary implementation tool of the New World Order (NWO), it’s safe to assume EW is available to all member nations.
- Department of Defense (DOD) has already defined the Global Information Grid (GIG) architecture with specific feeder grids/kill boxes/SMART cities built in by perturbation of the air molecules around each head & the biosensors in the biofield. Under Pentagon Directive

3000.09 updated in 2023 (first published in 2012), the military is autonomous & declares “positive outcomes are not necessary.” *Welcome to kill boxes & feeder grids with AI deciding your life or death.*

WHEN did all of this happen?

- The 6,000 year old death cult has controlled earth since the time of the Annunaki.
- Approximately, every 300-500 years, the nephilim/demons/hybrids are allowed to “feed” which is followed by a period of reset. During this reset, humanity has amnesia & experiences a period of renaissance & growth after the culling is complete. (Dark Ages, Spanish Inquisition, Salem witch trials, etc)
- We are due for another feed/reset around Agenda 2030. However, the controllers sped up the timeline using Covid, which has its own Cov-BAN of IoT WBAN.
- Look at all of the disclosure of “future technology” in movies, television, video games, etc.
- Sabrina feels we will see a die off of humanity in late 2023-2024 with airships for the Brain Imaging Library (BIL) in 2025. In 2026, she thinks they will come for the remnant, & Archangel Michael arrives in 2027 in her precognition notes & visions.
- As for the technology advancement developed & deployed for EW & transhumanism, here is the specific timeline:
 - **1660s** 300 year plan developed to dock the 4D with Fermat discovery of Langland (quantum encryption, L function) considered Rosetta Stone of math
 - **Late 1880s** nanotechnology invented
 - **1903** Neuromorphic chips sets purchased by banks (hybrids to disembodied spirits)
 - **1922-24** Humans connected via telephony
 - **1953** Predator MQ Reaper
 - **1954** Gravity mastered per Dr Steven Greer via 750+ whistleblowers over 30 years
 - **1956** Biosensors developed
 - **1960s** Langland’s equation (300 years old) “given” as basis of cryptographic protocols/ security (meromorphic function on complex plane) & cubic equation [Cube Sat]
 - **1968** RFID chipping of humans rolled out via Medical Implant Communications System/ ARPANET
 - **1969** Project Salus (SES) brings AI, heads up display & quantum research
 - **1972** Heart attack gun per Library of Congress
 - **1975** Asilomar Conference on Recombinant DNA, decision made ALL to Synthetic Biology
 - **1976** Biologic toxin Army research at Proving Ground, UT, Edgewood Arsenal, MD & Ft Detrick, MD
 - **1980s** Quantum computing companies (corporations NOT nations). Signature Reduction Force (white vans given vocations with benefits), local logistics gets N2 & N3
 - **1990s** N3, Library access via NIST or NASA, brain to brain (B2bi) is given to people INSIDE Congress by 1995. NON-INVASIVE NEURON EXCHANGE = N:N, 3D—>4D or B:B
 - **1993** Greer, as private contractor, studying “UFO phenomenon,” exotic technology, whistleblower testimony, etc

- **1994** Rwanda neuro modulation
- **1995** Wide Body Area Network, WBAN online
- **1999** Synthetic telepathy via Wordpress on the backend
- **2002** MAC internet routing for network engineering
- **2005** 802.15.4 biosensors made of analyte DNA, RNA & peptides with LOGINs via NASA corporations, vendors, companies
- **2005** Targeted Individuals & Havana Syndrome possible with 2.4 Thz 802.15.4 & .5, with WBAN
- **2007** NIST defines biophotonic tools in cell & tissue diagnostics
- **2007** “Digital twin” in the Global Information Grid (GIG) Architecture
- **2008** Synthetic biology rollout
- **2009** “Kill box” defined
- **2012** Open Shortest Path First
- **2012** MRI “leaves” the hospital, DARPA free to watch us
- **2013** Biosensors embedded, IEEE defines BAN
- **2013** “Targeted individuals”
- **2013** Wireless drugging of our seniors per FCC via nano antennas
- **2014** B2Bi is **COMMERCIALY AVAILABLE**
- **2014** Segmented sensor networks by organ (SMACs) mesh routing map with Industrial Scientific Medical (ISM) RF bands using Human Body Connectors (HBC)
- **2015** Jade Helm military exercise
- **2016** Information teleported on chips (cubernetes, open AI, Microsoft Open AI)
- **2017** Nano slaughter bots controlled via AI
- **2017** Graphene cyber physical backbone = “black awakening”
- **2017** Internet of Things online (Smart phone = barometer, gyroscope, accelerometer, magnetometer, proximity, light sensor, GPS, WiFi, Bluetooth, GSM/CDMA cell, near field communication, cameras & touch screen)
- **2018** We the People connected to the Cloud
- **2020** Covid gets its own data center: Cov-Ban, IoT WBAN
- **2021** Amazon shipping services given mesh, hybridized networking ability
- **2022** UN Digital ID
- **2023** Internet of Behaviors comes online

- From “Soul Catcher” PDF*:
 - *Nov. 1996: Advertisements for the "Soul Catcher" implant chip, which, as Personal Computer World explains, "will be implanted behind a person's eye and will record all the thoughts and experiences of their lifetime." Dr.Chris Winter boasts to London's Daily Telegraph, "This is the end of death... By combining this information with a record of the person's genes, we could recreate a person physically, emotionally and spiritually."*

- Sept. 23rd, 1998: Professor Kevin Warwick becomes the first known human to communicate with machines via a microchip implanted in his body. Afterward he admitted, "It does make me feel that Orwell was probably right about the Big Brother issue."
- Oct. 15th, 1998: The BBC reports on "bionic brain implants" developed by American scientists. "Over several months, the implant becomes naturally "wired" into the patient's brain as neurons grow into the cones and attach themselves to the electrodes mounted inside," the report asserts.
- Sept. 5th, 2001: ABC News journalist Nicholas Regush warns that "mind control" could be on the horizon. "On the bright side, the powers of this science could be used to mend broken and diseased brains," he says. "On the dark side, there would be plenty of opportunity to tinker with consciousness and control human behavior in menacing fashion."
- May 1st, 2002: An ABC report entitled, "Scientists Develop Remote-Controlled Rats" describes a Defense Advanced Research Projects Agency (DARPA) funded project, wherein rats, "each wired with three hair-fine electrical probes to their brains," are "directed through remote control by an operator typing commands on a computer."
- May 10th, 2002: A family has microchips inserted into their bodies on national TV (CBS) to acclimate the public to the idea.
- Aug. 15th, 2002: During the height of the Summer of the Abducted Child, the Philadelphia Inquirer runs a front page story on the new "high-tech approach to child security": the chipping of children.
- March 7th, 2003: An article in the Kansas City Star features University of Kansas professor Jerome Dobson "a respected leader in the field of geographic information technologies" warning that GPS technology may lead to a form of "geoslavery" which could make "George Orwell's 'Big Brother' nightmare ... look amateurish."
- March 12th, 2003: The BBC runs an article entitled "Scientists develop 'brain chip,'" which states that "US scientists say a silicon chip could be used to replace the hippocampus, where the storage of memories is coordinated." The testing, beginning on rats and rapidly proceeding to monkeys, will ultimately be conducted on humans.
- June 2003: "In a few months, researchers at the University of Southern California will test the world's first prosthetic brain part," Popular Science asserts, crediting Theodore Berger with creating "a 2 mm-wide silicon chip that he hopes will one day substitute for damaged or diseased brain regions." Potential military uses for the brain chip, which was partially funded by DARPA, includes building "sophisticated electronics," and integrating them into human brains to possibly "one day lead to cyborg soldiers and robotic servants."
- June 2003: In an article published on DARPA's Web site, Dr. Alan Rudolph explains how the agency's "Brain Machine Interfaces Program" will "create new technologies for augmenting human performance."
- April 14th, 2004: The Associated Press blasts the headline "FDA Approves Brain Implant Devices." Citing benefits to those with physical impairments and brain disease, scientist

Richard Andersen notes that "surgeons are already implanting devices into human brains -- sometimes deeply -- to treat deafness and Parkinson's disease," and says, "I think there is a consensus among many researchers that the time is right to begin trials in humans."

It's been in our faces for decades in every waiting room & grocery store checkout line across America. We just failed to notice. 🙄

* The CIA Director, Gus Hunt, in **2013** stated: "You're already a walking sensor platform." He noted that mobiles, smartphones & iPads come with cameras, accelerometers, light detectors & geolocation capabilities. Hunt also said, "It is really very nearly within our grasp to be able to compute on all human-generated information"

WHY would our government do this to us?

- Besides, the age old primary motivators of man — POWER, CONTROL & WEALTH— the people that control the world tend to be evil fuckers.
- These controllers want to create new gods, an "upgraded" human hybrid/cyborg.
- The NWO was agreed upon & chartered under the guise of the League of Nations after WW1. It morphed into the UN after WW2, & President John F Kennedy signed the "Freedom from War" treaty that created the "white helmet" global police/peacekeeping force with the goal of global disarmament.
- This NWO is also propelling us toward open borders, digital currency & Digital/REAL ID.
- Global population stands at around 8 billion which is taxing the resources & homeostasis of the earth.
- Huge population expansion means more people vying for limited computing power.
- The 13 controlling bloodlines/Club of Rome/Tavistock/Council of 300/Vatican/ultimate controllers, have either found Atlantis off the northern coast of the Horn of Africa & want to raise it, or they want to bring back the City of Ur. To accomplish that, they are busy terraforming the atmosphere, creating the cyber physical backbone for the processing power needed & working hard underground to pop Pangea to deploy the "Adam & Eve" CIA plan to switch poles & reform the world. (See the plan that was outlined in the Georgia Guidestones.) Are we their "prima materia" to finish this diabolical plan?

- We the People are the wireless system because they are routing data through US. We are the “useless eaters” that serve as their slaves, their cyber physical backbone, their playthings & their food source.
- These controllers scoff at God & mock us for our faith. By tampering with God’s DNA encoding & creation, they feel superior. Their satanic beliefs & systems are the motivations for the evil agenda of transhumanism, bio convergence to hybrid/cyborg creatures & pillage of our bodies for data routing.
- They hate God & Jesus Christ of Nazareth & are trying to block our Creator’s frequency from reaching US.
- Essentially everyone has been tampered with on a sliding scale from hybrids (most augmented) to free range humans who avoided the Covid jab & try to eat cleanly. However, no one can avoid meta materials completely because the air is sprayed, etc.
- These controllers are tampering with God’s creation, our DNA/US, by using steganography techniques with our DNA, editing our genetics with CRISPR CAS 9 & further manipulation with graphene & other meta materials to prove their superiority over God — such an abomination!

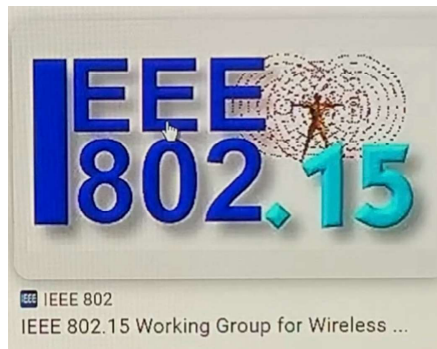

HOW?

- See the timeline above to understand when we got to this juncture.
- Testing done on the elderly, poor, military, mentally disabled as well as subjects of communist nations.
- Our history has been systematically hidden from us & perverted by them.

For decades, YOU have been monitored wirelessly via 802.15.4 biosensors from at least 2 radio frequency (RF) sinks near your heart (thoracic duct of your lymphatic system) & bladder cisterna chyli of your lymphatic system) which collect signals from 5 star-shaped nodes mapped over your circulatory system & acupuncture meridians. Your digital twin is uploaded to the cloud, & your neurons are watched in real-time. These biosensors are made with YOUR tissues (amino acids, peptides, etc) attached to nanotechnology (transducers) which use your red blood cells & minerals to carry the electrical signal to RF sinks. The RF sinks can act as a conduit to uncouple cells, disassociate fields, collocate neurons, mesh with the BANs, etc.

This system was deployed in the 90s, & since then there has been a huge rise in autoimmune diseases. Using red blood cells depletes iron. Logging in & out of your body runs electrical signals in an unnatural manner through the unique & sensitive biofield causing inflammation, heat changes & pressure differentials that disrupt your immune system (about 80% in the biofield) & endocrine system (about 40-60% in the biofield). *Welcome to fibromyalgia, lupus, cancer, autism, autoimmune disorders, cancers, Morgellon’s & a host of diseases as a byproduct of electronic warfare.*

Having trouble believing the IEEE standards for 802.15 is targeting YOUR biofield? It couldn’t be any clearer than this graphic courtesy of the society. Look closely at the area around the human — BODY area network... 📍

This neuromodulation was developed & deployed via black/special access projects (SAP) with the assistance or “look the other way attitude” of the medical community, sheriffs, local police, lawfare proponents, military, paramilitary & orchestrated by GeoSpatial to Silicon Valley. Anyone in electrical, HVAC, radio frequency or user of Raspberry Pi or coder of Python all knew what was happening too. NASA provided the computing power, especially the Jet Propulsion Lab (JPL).

It’s a system of surveillance & reconnaissance & total piezoelectric control because the powers that be have you mapped down to the bone marrow via biophotons. Look up the internet of behaviors which encompasses bodies, things, industrial, medical. Using Body Area Networks, 6gloPAN, synthetic biology via graphene for starters as the cyber physical backbone, your neurons are watched 6 days in advance & modified if necessary to their desired outcome.

You are monitored & controlled via Sensors Open System Architecture (SOSA) & Modular Open Systems Approach (MOSA) using (6glo) PAN RF signals that are Zigbee/Bluetooth enabled. Anyone with the expertise could sense/detect or jam the signals. This back & forth communication interferes with your natural human biofield response. The military currently has a 5g linked drone swarm for Intel collection called OSIRIS (Marine Corps, helicopters, AT&T (Southern Bell & Bell Labs) per C4ISR, September 2022. When they want to bypass IP protocol they also have ISIS, or Intermediate System to Intermediate System.

The coders writing the apps for Zigbee & Bluetooth have been using k-hop routing based on heat, fenestration of the biofield & active data collection built on carrier & collision waves. It’s open shortest path first. In essence, your body has become part of the computer networking model of open systems connectivity. How? Technically, We the People are now beacon enabled swatted CSMN/CA (with collision avoidance). There is also non-beacon enabled mode called unslotted CSMA/CA. It’s wide open, off-the-shelf biohacking based on neural networks — YOUR neurons & YOUR biophotons too.

All of this surveillance is controlled by ISR, L3, Harris & Raytheon per C4ISR. It’s an applied SIGNAL technology in phase 2 of development called HADES (the god of war) or High Accuracy Detection Exploitation System which is a Multi Domain Sensing System (MDSS). The

system is globally deployable with longer ranges & higher altitudes in the capacity requirements. It's SOSA & MOSA per the Program Executive Office (PEO) of electronic warfare based on sensors using the WBAN, BAN, 802.15.5, 802.15.6 & 6gloPAN. YOU are the network.

This system is causing repeated inflammatory responses & subsuming your immune system to uncouple/download/upload anything "they" want electromagnetically into your cells. Every time DARPA deploys a gradient wave, you suffer with pain. This is utter piezoelectric molecular control to the bone marrow & wireless tissue engineering. This is autonomous & mapped via the telemetry of your biofield. This was built by taking away fundamental & ancient knowledge from our sciences like biofield, frequency, oscillation, cymatics, optics, radionics & plasma from US.

Circulation of the cerebral spinal fluid creates new biophotons every 30 days. Using the technology described above, YOUR biophotons are siphoned off. YOU essentially act as a battery constantly recharging monthly as your biophotons get depleted. Battery, antenna, weapon & wireless transmission station are just some of the ways the controllers take full advantage of you with unfettered access that you did not approve. Since the entire system runs off your DNA, it cannot just be turned off. That action would turn you off as well.

Speaking of fluid, researchers are now using "liquid neural networks" as AI algorithms that adapt to new data inputs. How is the data collected & used? Radiating the air from above, or ether, using a drone & manipulating the ground from below with CERN, Iter, Tokamak, MITRE & neutrino arrays, YOU are part of the ambient, cognitive (CBAN). Also, anyone taking SSRIs is routing data better than the unmedicated mind, hence the astronomical rise in pharmaceutical drugging for mood/emotional disorders.

It's ubiquitous pervasive computing. It's a closed neuronal loop. It's synthetic biology, morphology & genetic engineering. It's transhumanism. How? Meta materials is the answer.

Meta materials are substances not normally found in nature. For instance, graphene is created in a lab & is 1 atom thick, so it's considered 2D. Graphene has been found in at least the Pfizer Covid vaccine. It can also be introduced into human bodies via food, water (hydrogels) & chemicals sprayed in the air. Once a 2D graphene meta material merges with a 3D human, the results can produce a 4D organism/hybrid/demon. According to Sabrina, the meta materials are inscribed with the "key of Solomon" seals (lithography). That is another way the controllers could achieve their desired outcome of hybrids/demons on this plane.

The meta materials have SMART properties by the precise shape, geometry, size, orientation & arrangement. Sabrina developed her biofield techniques of block, shock, shunt & shield based on how meta materials can manipulate (block, absorb, enhance & bend) electromagnetic waves. She is utilizing concurrence, amplitude, loss & capacitance to counter an attack on the biofield. Meta materials result in meta surfaces via a process of polarization, steering,

absorption, fission or filtering of frequencies to create an altered phase, focus or custom electromagnetic field outputs.

The powers that be are finalizing BIL, or brain Imaging library, via radio modulation, thermal dynamics & biophotonic manipulation. Or, it's synthetic biology/genetic engineering/combinatorial synthesis employed via CRISPR cas9, DEPSYS (DNA-encoded solid-phase synthesis), nano therapeutics, modified polynucleotides, cytotoxic agents (formaldehyde, ethylene oxide, SM102 (Epstein junk), graphene, cordyceps fungus), radioactive ions, super para-magnetic (human embryonic kidney 2938) cells, Tesla fluorosis, nekkid DNA/protein wrapped, methylate, proteomics, transcriptomes. They have you mapped, manipulated & mind-controlled in every way possible & sell it as "regenerative medicine" or "life extension."

Optogenetics appears to be the final frontier in brain/behavior control & modification. It's biophotonics, spectrography, optical coherence, opto-array all done via electronic warfare. It's biosensors reflecting back, like little mirrors or lenses throughout your body, to be read, monitored, adjusted & controlled with optics & light. There are even optical tweezers to affect cymatics. They can manipulate you via LED lights in your home, car, work.

Obamacare created "death panels" designed to parse out care & determine whether you live or die based on a scoring system. It also linked the genetic & medical data to nations worldwide "for your health" (of course). AI will ultimately take over these decisions as they have everyone mapped out & connected. The powers that be want you fat, still/lazy, drugged & obedient for their data processing needs. If you step out of line or don't follow their rules by gaming, partaking of digital entertainment or using social media, you're in future danger of AI selecting you for elimination.

Meanwhile, there are hybrids & super soldiers that have augmented themselves with meta materials & soft robotics. They can also further augment themselves by using the Rydberg atom to access quantum databases & AI, rendering them enhanced & almost invincible.

There is no longer "free will" if the controllers have you monitored constantly because if you make a decision they do not approve of "they" can login & change your cell state, lock you in a feeder grid/SMART city, use electro fog or smart dust to get the desired results or bioelectromagnetically elicit a desired outcome. The controllers use chaos & changeable dynamics across the energy spectrum— using random matrix theory math, they already know what you will do before you do it. They can also use perturbation of your cells with sound using fractals (to vibrate you cymatically). Your kill box expands to the next kill box, & so on & so on... a worldwide decision prison. It's a scalar function controlling gravity & time.

Nobody should have their light (photons) stolen! Nobody should have tasers "sewn" into their bodies which can burn you from the inside out toward your skin! Nobody should have their digestive system, hormones, immune system, circulation, etc monitored for cytokines,

inflammatory response, thermal dynamics & the homeostasis of their bodies “overridden” to power & route data systems! Nobody should have their DNA tampered with for human husbandry! Nobody should have a remote control to your neurons, behavior & body! Finally, nobody should tamper with your connection to God & the beautiful product of His love which created the unique YOU! Sadly, there is no safe way to end the fuckery without ending you...

4D printing = known as **4D bioprinting, active origami, or shape-morphing systems**) uses the same techniques of **3D printing** through computer-programmed deposition of material in successive layers to create a **three-dimensional** object. However, in 4D printing, the resulting 3D shape is able to morph into different forms in response to environmental stimulus, with the 4th dimension being the time-dependent shape change after the printing. It is therefore a type of **programmable matter**, wherein after the fabrication process, the printed product reacts with parameters within the environment (humidity, temperature, voltage, etc.) and changes its form accordingly. - Schumann resonance = natural EMF

Solutions:

- Grounding with the earth to reduce inflammation
- Shielding yourself & property
- Drum cymbal shield/copper “ephod-like” shield to carry with swords
- Protect your property with water that you have prayed Ephesians 6 over, & make sure you do 1-3 times
- Glitter, mirrors, amulets — reflect the signal
- Biofield (offense & defense) practice DAILY (block, shock, shunt, shield & rebuke)
- Prayer, reading the Bible, Jesus Christ of Nazareth & Guardian Angels
- Crystals, plasma energy water & Benadryl to bind ACE-2 receptors
- Tuning forks to disrupt the biosensors, or 🙌
- Emotional Freedom Technique (EFT tapping)
- **In case of EMP/nuke/6 weeks of lockdowns** —> No lights, Block windows with heavy stuff, Listen to God, Cognizant of safety & scouting, Astral project only if shielded, Ether is weaponized, Be careful, Silver cord weaponized too. Don’t use, Shield yourself (especially if chipped)
- If the network/internet goes “down” because of said EMP, do NOT connect again, or you will never be able to disconnect again/be forever trapped in a SMART grid.
- **Hybrid near?** Wear a mask. Don’t let them bleed on you. Kneecap them. Know how to produce an **energy ball**? Clear & project it outwards to defend.
- Halloween “feeding” time: food on the go, no sitting still, SHIELDS UP!
- SoC sock...
- Sing portals open
